Spring 2016 Research Plan

1.) Write a brief outline of your research plan:

Project Goal: Explore ways to use cryptography to mitigate data breaches.

Steps:
- Read up on existing techniques and tools available.
- Design a protocol
- Select an open source candidate application
- Implement a prototype

2.) What do you hope to learn and achieve by the end of the semester?

I want to gain hands-on experience with research, cryptography and programming systems.
