**Fall 2017 Research Plan**

1.) Write a brief outline of your research plan:

   The research plan involves testing out the Twitter Crave program, which is a program that helps designers effectively process online feedback. I will be mostly coding front end UI.

2.) What do you hope to learn and achieve by the end of the semester?

   I hope to get a more developed understanding of front end CSS experience that I can use for my capstone.
