For Individuals: Getting Started with IDEALS

UIUC faculty, staff, and graduate students may deposit their work directly into the Illinois Research and Scholarship (Open Community) collection. This collection is for those faculty, staff, and students whose own academic units have not yet set up their own IDEALS community and collection (for example, the European Union Center).

If you would rather have your academic unit or group set up its own community, please contact IDEALS staff via email at ideals-gen@illinois.edu.
