Assignment Submission Guidelines

All the assignments, including projects and surveys, can be submitted at Illinois Compass-2G: https://compass2g.illinois.edu/. (NOT Compass)

After you log in, click "Assignments", and then select the entry that you need to submit. Since it is an electronic submission system, it will automatically give the time stamp! There may be network traffic problem, so please submit well before the due time.

For works in groups, each group only need to submit one copy using any member's account, you just need to specify clearly all the group members in your report.

The information on how to use the compass system can be found at: http://cites.illinois.edu/illinoiscompass/studentresources2g.html

Especially, you may want to check out how to submit assignments.
