What is the Business Manager's Group (BMG)

BMG is a special interest group of business professionals from the Urbana-Champaign campus. The group was organized in 1969. Since then, BMG has developed business professionals on campus through discussions, information exchange and involvement. BMG is a volunteer led group that operates by committees. We rely on and value the input of the membership.

Please check out the committees and let us know if you have ideas or concerns. For a membership application or to contact one of the officers, follow the links below.
