Courses

See https://publish.illinois.edu/theory-cs/theory-courses/ for more up-to-date courses.

Regularly Offered Theory Courses

- CS 173 Discrete Structures (every semester)
- CS 373 Introduction to Theory of Computation (every semester)
- CS 473 Fundamental (aka Undergrad) Algorithms (every semester)
- CS 573 (Graduate) Algorithms (every fall)
- CS 579 Computational Complexity (every spring)

Regularly offered special topics courses

- CS 498 Logical Foundations of Computer Science (every two years?)
- CS 598 Randomized Algorithms (every two years)
- CS 598 Approximation Algorithms (every two years)
- CS 598 Applied Cryptography (every year)

The last three should have their own course numbers by Spring 2011.

Teaching Schedule

All future teaching assignments are tentative.
