0 - How to login to your Reseller administrative account

Logging into the Web Host Manager (WHM) administrative dashboard for your reseller account is a multiple step process. First you must login to your reseller cPanel account and then you can use the Web Host Manager link to gain access to your reseller admin dashboard.

1. Go to [https://web.illinois.edu](https://web.illinois.edu) and click on the "Login to or create your web hosting account".
2. Click on the "Campus Login" button
3. Login using your netid@illinois.edu account and NetID password
4. If you have access to more than one cPanel account, click the link to the reseller account.
5. In the Advanced section of the dashboard, click on the "Web Host Manager" option.

You should now be logged into the Web Host Manager where you can manage the accounts that you own.
