Why volunteer to be a PURE Mentor?

Motivations for previous PURE Mentors:
* To introduce undergraduates to research
* To gain mentoring/teaching experience
* To show undergraduates about graduate school
* To help undergraduate students
* To get some help with their own research/projects

The most commonly mentioned aspect of PURE that met or exceeded past mentor expectations was that the mentee students were motivated, intelligent, and excited about research.

The vast majority of past PURE mentors say that they want to be PURE mentors again because ...
* Being a PURE mentor was fun
* Being a PURE mentor provided valuable teaching experience
* Being a PURE mentor helped them get part of a research question answered
* The mentees seemed to benefit from the experience
