ECE 297 or CS 199 for PURE Research Credit

Only undergraduate students participating in PURE may sign up for ECE 297 or CS 199, which is a course that provides precisely one credit hour. The course is essentially an agreement between a PURE mentee and the faculty advisor associated with the PURE mentor establishing definite goals for the mentee to achieve by the end of semester. The one credit hour provided by ECE 297 or CS 199 does count as a technical elective in the ECE curriculum. Students may opt to take ECE 297 for no more than two semesters. CS 199 may be repeated for more than two semesters.

Questions about ECE 297 or CS 199 may be addressed to Professor Kudeki, whose email address is erhan [at] illinois dot edu.
