For each project team, for your project, prepare a list of papers as candidates for the instructor to approve and select for your teammates to present during later parts of the semester.

How to submit:

- Step 1. Create a subpage under the Projects page (name the subpage with prefix of your project name or student NetIDs of the team members)
- Step 2. List <= 10 papers related to your project
  - These papers must be conference papers published in the list of conferences listed here.
- Step 3. Make a link to your subpage from the last column of your project's row entry in the project table in the Projects page.
