Recent Publications - not updated! See individual home pages

2008

- Sergio Cabello, Matt de Vos, Erickson, Jeff G, and Bojan Mohar. Finding one tight cycle. SODA 2008.

2007

- Sergio Cabello and Erin W. Chambers: Multiple Source Shortest Paths in a Genus \( \gamma \) Graph. SODA 2007.

2006

- Éric Colin de Verdière and Erickson, Jeff G. Tightening non-simple paths and cycles on surfaces. SODA 2006.
- Erickson, Jeff G, Har-Peled, Sariel, and David Mount. On the least median square problem. Discrete & Computational Geometry, in press.

2005

- Erickson, Jeff G. Dense point sets have sparse Delaunay triangulations. Discrete & Computational Geometry 33:83--115, 2005.
- Erickson, Jeff G. Lower bounds for external algebraic decision trees. SODA 2005.
