Alerts for New Content in IDEALS

RSS Feeds

You can subscribe to an RSS feed for recent additions to all of IDEALS, a community, sub-community, or specific collection. Look for the icon next to the "Recent Additions" heading. This icon links to the RSS feed which can be added to your favorite feed reader.

Email Alerts

You can also set up an email alert for new content in IDEALS. You will first need to log into IDEALS (or create an account in IDEALS if you are outside the University of Illinois). Once you are logged in, select "My Profile" from the left hand navigation bar (under the My Account heading). About halfway down the screen, there is a section called "Subscriptions". Select the name of the collection for which you would like an email alert.
